

## HERKULES LIFTING BY HEDSON

### Herkules HLS 3213 – AirgoMatic

With a capacity of 3.2 tons (7,054 lb) and a lifting height of 1.3 m (51.18”), the AirgoMatic 3213 sets new standards. It is suitable for the most common car types and offers space-savings in the workshop, thanks to only 110 mm (4.33”) high cantilevers and proportionately short ramps.

- Fast and easy installation
- Low maintenance cost
- Minimal space requirements in workshop

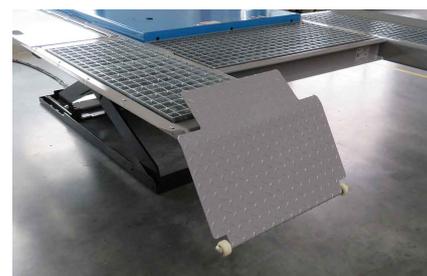

### HIGH CAPACITY

The lifting and lowering of the working height is done safely and smoothly with a Herkules HLS 3213 by Hedson and increases the access to damaged areas and the ergonomic work process with loading capacity up to 3,2 tons

### SILICONE & OIL FREE

As all Herkules by Hedson lifts are silicone & oil free (PWIS-free, stands for paint-wetting impairment substances) - the risk of spreading silicone in the shop is eliminated and thereby making sure jobs do not have to be redone

### ERGONOMIC & SPACE SAVING

Ergonomically friendly and space saving as minimal space is required in the workshop due to the low cantilevers

**HERKULES HLS 3213**

Herkules HLS 3213 - version 1	Part.no. HLS 3213-11
Herkules HLS 3213 - version 2	Part.no. HLS 3213-14
Herkules HLS 3213 - version 3	Part.no. DUO3213-11
Herkules HLS 3213 - version 4	Part.no. DUO3213-14
Herkules HLS 3213 - version 5	Part.no. DUO3213-16

Weight

Lifting height 1300 mm (51' 18")

Loading capacity 3,2 tons

Air supply 6 bar (87,02 psi)

Working height ~ 1600 mm (62' 99")

Installation - version 1, 3 On-ground

Installation - version 2, 4 In-ground

Installation - version 5 In-ground with CE-stop
